Response to Office Action

Sir:

This Response is filed addressing the issues raised in the Office Action dated September 21, 2005, regarding the above-noted application for patent. The Applicant submits that, in light of the remarks below and the requested amendments to the application, the application is in proper condition for allowance. The Applicant respectfully requests the examiner allow the amendments to the specification and claims and allow the patent to proceed to issue.

REMARKS

Claims

Paragraph 1 of the Office Action notes an objection because the Applicant has included the phrase "What is claimed is" on line 19 of page 7 of the application instead of as line 1 of page 8, which is the page which contains Claim 1. Applicant has done this for several reasons. The first reason is because MPEP 608.01(m) requires it when it states that "The claim or claims must commence on a separate physical sheet and should appear after the detailed description of the invention." The second reason is that Applicant's attorney has filed over 100 patents which have been granted by the patent office and this objection has never been noted prior to this office action,
